

AMENDMENT TO THE DRAWING

Please insert new Figures 6A and 6B (2 sheets) in the drawings.

REMARKS

In the Notice of Non-Compliant Amendment, the Patent Office objected to the amendment mailed on April 22, 2008 because the new drawing sheets were not identified in the top margin as "New Sheet" as required by 37 C.F.R. § 1.121(d). Submitted herewith are new sheets depicting new Figures 6A and 6B. The figures being inserted into the specification are the same material submitted with the previous amendment. New Figures 6A and 6B display the sequences of SEQ ID NOS: 3 and 4 as corrected in the specification at page 35, lines 33-36, and do not add new matter to the application.

CONCLUSION

Applicants believe pending claims 125-261 are in condition for allowance and early notice thereof is requested.

Dated: September 8, 2008
